The diagram shows a table titled "Snapshot Change Map" with five columns: Index, Block Address, Status, File, and Region. The table has two sections. The first section contains rows 1 through 7. The second section contains rows N-3, N-2, N-1, and N. Below the table, five wavy lines are positioned above the row labels N-3, N-2, N-1, and N. Below these wavy lines, five curly braces are positioned below the row labels N-3, N-2, N-1, and N, spanning from the "Index" column to the "Region" column. The "File" column for row N-3 is aligned with the "File" column for row N-2. The "Region" column for row N-3 is aligned with the "Region" column for row N-2. The "File" column for row N-1 is aligned with the "File" column for row N. The "Region" column for row N-1 is aligned with the "Region" column for row N. The "File" column for row N is aligned with the "File" column for row 1. The "Region" column for row N is aligned with the "Region" column for row 1.

Snapshot Change Map				
Index	Block Address	Status	File	Region
1	14763	Unchanged	3473	1
2	14764	Unchanged	3473	2
3	-	-	-	-
4	32603	Changed	3486	1
5	32604	Changed	3486	2
6	32605	Unchanged	3486	3
7	-	-	-	-
N-3	109736	Unchanged	4178	1
N-2	109738	Changed	4178	2
N-1	-	-	-	-
N	5832	Unchanged	173	1
